

OVERVIEW

New Jersey headquartered **InfoPro Corporation** has more than a decade's presence as e-learning provider, and has successfully developed and delivered cost-effective online courseware and learning management solutions for many of the world's best-known companies including Motorola, Fidelity Investments, Thomson NETg, ACT, The Boston Group, GeneEd, Seagate, Tiffany & Co., AGFA, EBIX, Experian, Gartner, Oracle, Novartis, Sybase, Panasonic Avionics Corporation, Johnson & Johnson, and many more.

InfoPro's flagship product **TeachMeIT** (www.teachmeit.com) is an online portal providing a comprehensive library of IT and business-related off-the-shelf eLearning courseware to both corporate users and individuals alike. With TeachMeIT e-learning solutions, new learners have immediate access to an established learning community. We give learners the benefit of choosing from an array of courses, and also the method in which they want to learn them: through self-paced learning, instructor-led classes or a blend of both. Because we host the training site, our courses are automatically updated on a regular basis – keeping the learner abreast with the latest.

PORTAL

TeachMeIT is an online portal that has a unique product line – a comprehensive repository of high quality, state-of-the-art IT courses. It is a web-based eLearning platform that gives the learners the flexibility to access courses anytime, anywhere. The portal is thus completely dedicated to delivering high quality eLearning content that is capable of delivering increased annuities over the complete customer lifecycle.

The portal commands expertise in the following areas:

- ✓ Exceptional quality of graphical interface design, visualization, programming, and management
- ✓ Clearly defined standards and procedures for all phases of CBT & WBT development
- ✓ Proven instructional design methodology (we have used it to successfully design and implement over 250 WBT and CBT titles)
- ✓ Subject matter expertise available from a pool of over 350 in-house developers in varied technology areas.

PRODUCT

TeachMeIT's vast library of more than 250 courses, which make around 1100 hours of learning content, in both technical and non-technical fields, underlines its enviable position in the industry. The courses are developed using appropriate e-Learning methodologies and Instructional Systems Design (ISD), ensuring learner engagement, enrichment, & evaluation.

With TeachMeIT e-learning solutions, the learners have immediate access to an established learning community, with an array of courses to choose from. However, the easy availability and quick connectivity of the Internet might not apply to all - that is the reason why we can also convert our WBT courses to CD-ROMs. The courses, running off the CD give you the flexibility to deliver training to the learners in an effective and efficient manner. We also provide the **assessment tools to administer and monitor the entire training program** with our ongoing assistance on clients' preference. Nevertheless, we are always behind the scenes creating training courses and delivery options that drive bottom line business results for training programs.

BENEFIT

At TeachMeIT, our primary focus is to provide you Internet-based e-learning solutions with many of the benefits they offer...

These benefits include:

- ✓ Limited internal resources required for setup and maintenance, and courses don't need to be loaded on clients' servers
- ✓ Clients' training site can be made functional within a few days, along with the complete Learning Management/ Administration system
- ✓ Employees and students can train anytime, anywhere they have access to the Web, 24x7
- ✓ Our training site is updated seamlessly so vital content is always up-to-date
- ✓ We can fashion the site to clients' own needs and preferences. Brand it, customize it, and deliver it to your people!

Whether the clients decide to deliver training **over the Internet** or in a learning center **on their company intranet**; whether e learning represents the learning organization's primary training tool or is used to complement an instructor-led program – TeachMeIT will always be a powerful tool for our clients' employees/ customers.

**Unearth our rich pool of informative, interactive and educative WBT courses
(that can be converted to CBT s with minimal effort)
that will benefit you beyond imagination.**
